Dear Permittee:

Your modified Wisconsin Pollutant Discharge Elimination System (WPDES) permit is enclosed. The conditions of this permit modification were determined using the permit application, information from your WPDES permit file, comments received during the public notice period, and applicable Wisconsin Administrative Codes. All discharges from this facility and actions or reports relating thereto shall be in accordance with the terms and conditions of the modified permit.

Please replace the current permit issued on January 01, 2012 with the attached modified permit.

This enclosed permit requires you to submit groundwater monitoring results to the Department on a periodic basis. Monitoring forms, which must be submitted electronically, are available on the Department's web page.

You will need to have access to a computer with a connection to the internet and Internet Explorer 8 or higher web browser. You can learn more about WPDES monitoring form submittals at

Department also has the authority to issue, reissue, modify, terminate, or revoke and reissue WPDES permits under ch. 283, Wis. Stats.

To challenge the reasonableness of or necessity for any term or condition of the enclosed permit, s. 283.63, Stats., and ch. NR 203, Wis. Adm. Code, require that you file a verified petition for review with the Secretary of the Department of Natural Resources within 60 days of the date the permit was issued (see "Date Permit Signed/Issued" after the signature on the front page of the enclosed permit). For permit-related decisions that are not reviewable pursuant to s. 283.63, Stats., it may be possible for permittees or other persons to obtain an administrative review pursuant to s. 227.42, Stats., and s. NR 2.05(5), Wis. Adm. Code, or a judicial review pursuant to s. 227.52, Stats. If you choose to pursue one of these options, you should know that Wisconsin Statutes and Administrative Code establish time periods within which requests to review Department decisions must be filed.
